Dedicated to the Memory Of

The whole of Maryville High School was deeply shocked and sorrowed by the sudden death of Belle Baker. Mrs. Baker was not merely a mathematics teacher; she was a builder of personalities. From her classroom have gone scores of young persons who now are ascending to the heights of success. In the minds of every one of her students, her greatness will continue to grow even though she is no longer with them. In appreciation of this great educator, we, the Senior Class of 1963, respectfully dedicate this edition of the APPALACHIAN to the memory of Belle Baker.

HERFF JONES

Here is your new annual. In this one book there are enough memories to bring back, in part, the highlights of the past year. But the events recorded in this book have already taken place. Just as Maryville High School is growing and moving forward, you and time also are progressing. Memories are cherished possessions, but they are not to build the future upon.

I hope that each of you has grown in all aspects of life during the past year. If you have, you will not rely upon memories. Instead, you will work hard to accomplish your life's goal.

I wish success and happiness to each of you. I have truly enjoyed being your editor. I hope that you enjoy this edition of the APPALACHIAN.
